J2EE Web Application Programming	5	\$6000
J2EE For Managers	1	\$1200

For detailed outlines for these courses, go to www.descriptor.com/instructor-led/index.jsp.

This listing only shows our most popular, readily available courses. Given a bit of lead time, we can create courses on topics like:

- Introduction to Java Programming
- XML, XML Programming or XSLT Programming
- Object-Oriented Analysis and Design using the Unified Modeling Language
- Microsoft .NET or C# Programming
- SQL or JDBC Programming
- Perl or PHP Programming
- IBM WebSphere Administration

And remember: We will customize any of our courses to exactly meet your needs for no extra charge.

Pricing Details

All prices are in US dollars and do not include travel expenses. The customer must provide the training room, lab computers and computer projector. Pricing also assumes that the customer duplicates a set of course materials for each student and performs the lab computer setup.

All courses except for the J2EE For Managers course include hands-on lab exercises and are limited to a maximum of 16 students. The J2EE For Managers course is lecture-only and can accommodate up to 30 students.

For Local Eastern Iowa Customers Only

For a limited time, we are running a special promotion to help build local business. Your first class costs only \$600/day rather than the normal \$1200/day.

J2EE Environments

For J2EE courses (Servlet, EJB, JSP and Struts), depending on the course, you can select one of the following lab environments:

- IBM WebSphere Studio Application Developer 5.x
- Oracle Containers for J2EE
- JBoss or Tomcat
- BEA WebLogic

No-Risk Guarantee

If you are not completely satisfied with one of our courses, we will cheerfully refund the base price of the course. Travel expenses excluded.
